1. Software Installation

For proper system installation of the **Cigati [AOL Backup Tool](#)**, your computer should have the minimum configuration requirements that are mentioned below.

Minimum System Requirements

Processor	Intel® Pentium 1GHZ Processor(x86, x64) or equivalent
Hard Disk	500MB of Free Hard Disk Space Required
Memory	Minimum 512MB (1GB Recommended)
Operating System	Windows 10 and all below Versions

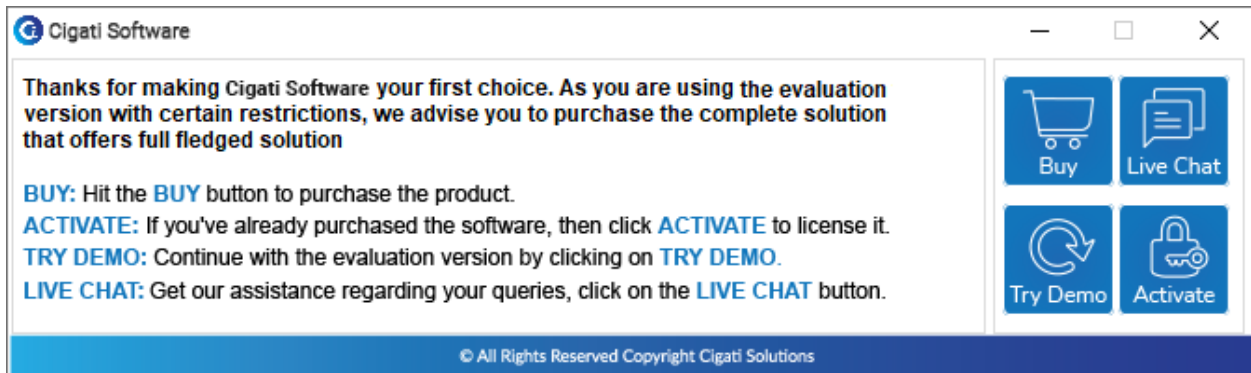

Installing the Software

To install the **Cigati AOL Backup Tool**, you need to follow the below installation steps precisely.

- Firstly, navigate to the [Cigati Solutions](#) website.
- Go to the **AOL Backup Tool** page and download the tool.
- Now, click on the **Downloaded File** to start the installation setup.
- Press the **Next** icon to proceed further in the steps.
- Choose the location on your PC to install the software and hit **Next**.
- Once the installation completes, tap on **Finish** to exit the setup.

Evaluation Version Tab Buttons

As you launch the demo version of the software, the following buttons are displayed on the first tab that is displayed.

Buy: It redirects you to the [Purchase now](#) webpage, from where you can buy the licensed version of the software.

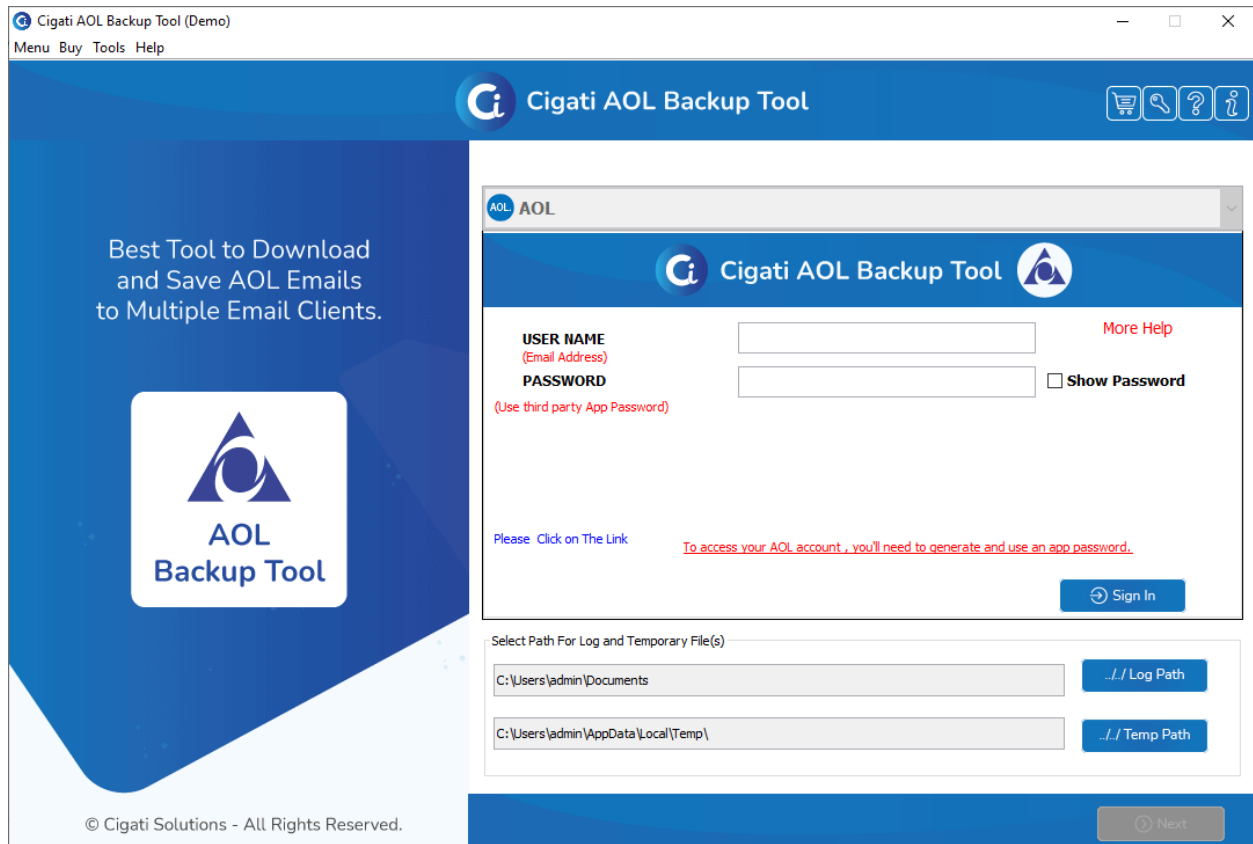

Live Chat: This button will take you to the [Customer Support](#) page if you require any technical support.

Try Demo: It opens the demo version of the utility that comes with some restrictions.

Activate: You can activate your software with this button using the Order Id and [Activation](#) Key if you have already made the purchase.

2. User Interface

You will see the below user interface as you open the **Cigati AOL Backup Tool**.

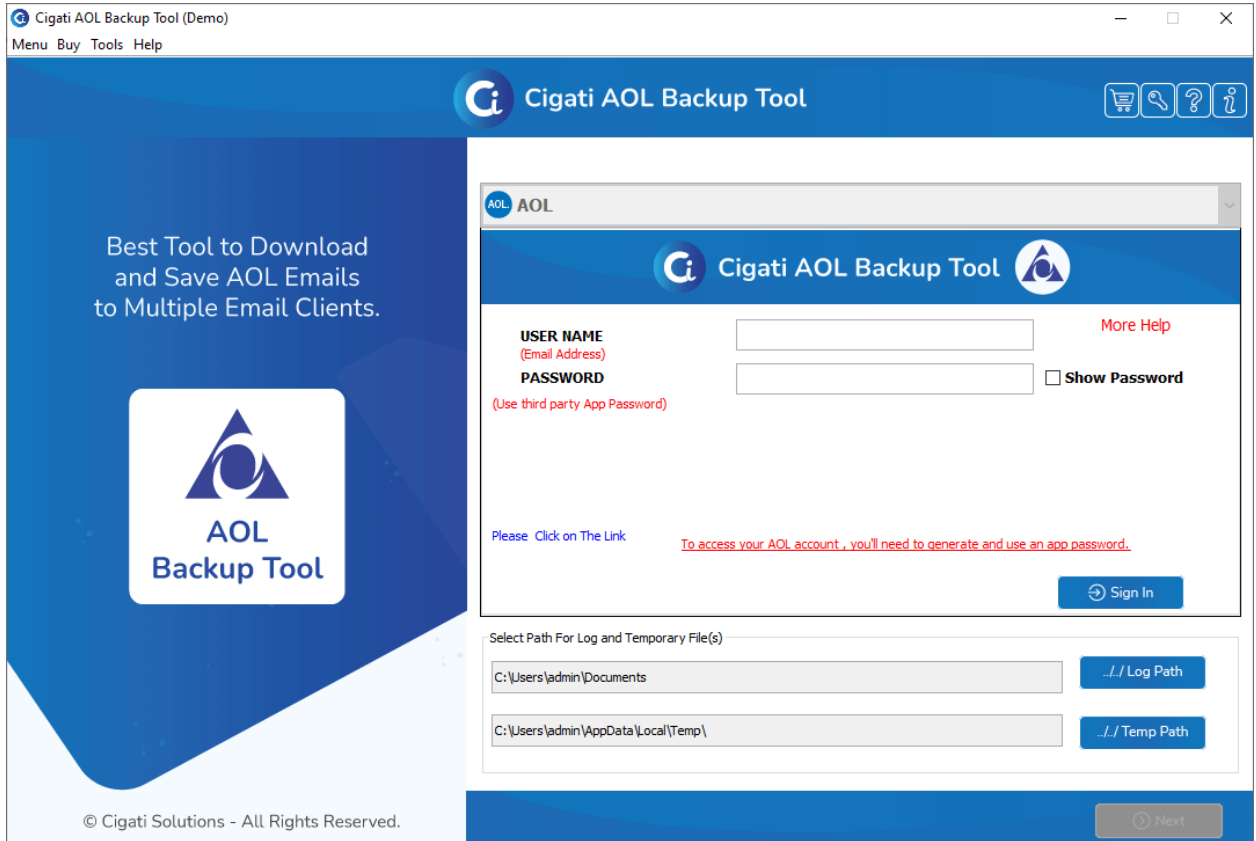

You can use the four icons displayed on the tool for their below-mentioned functions.

	Buy	Click on this button to buy the licensed version of the software.
	Activation	You can activate the full software using the Order ID and Activation Key with this icon.
	Help	Tap here to learn more about the working and features of the software.
	Info	If you require any information about the software, you can press this icon for the same.

3. Working Procedure of the Software

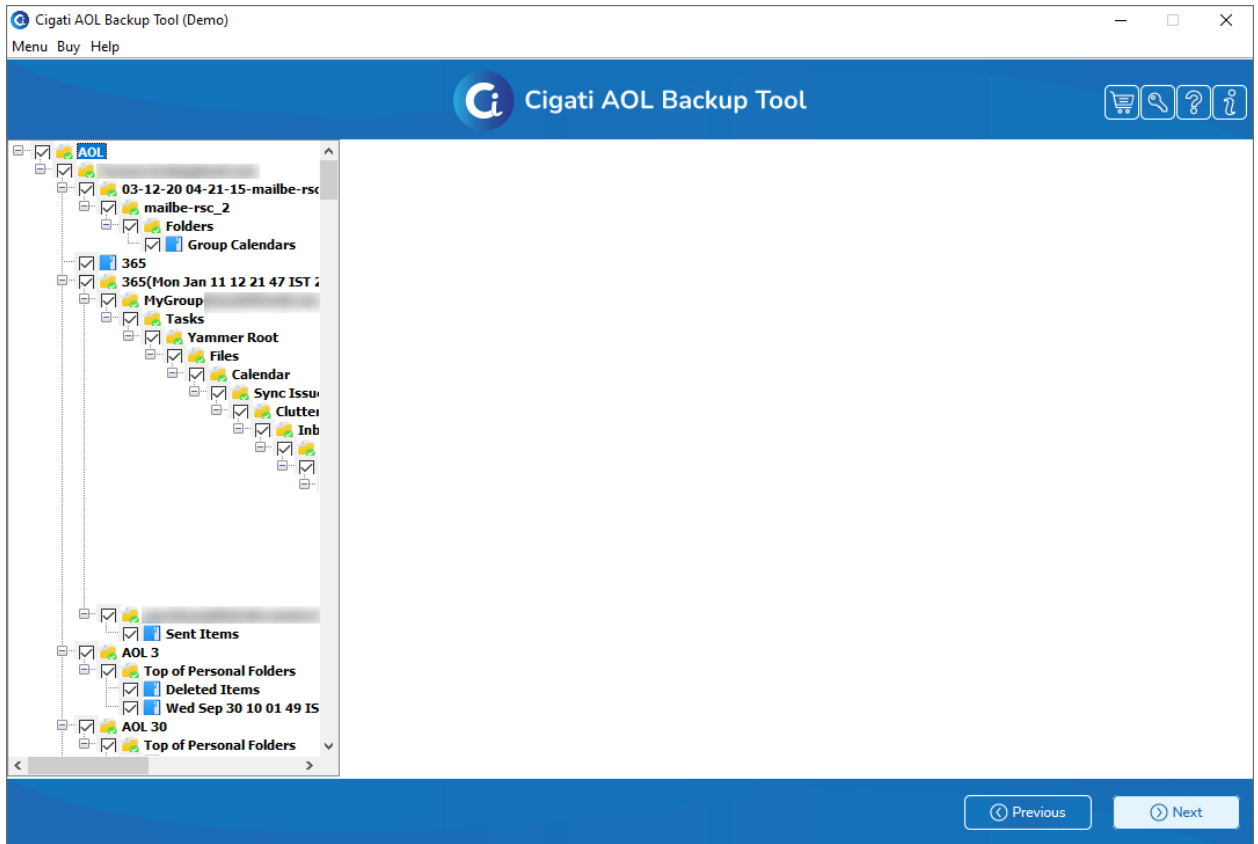

1. Install and run the **Cigati AOL Backup Tool** as administrator.

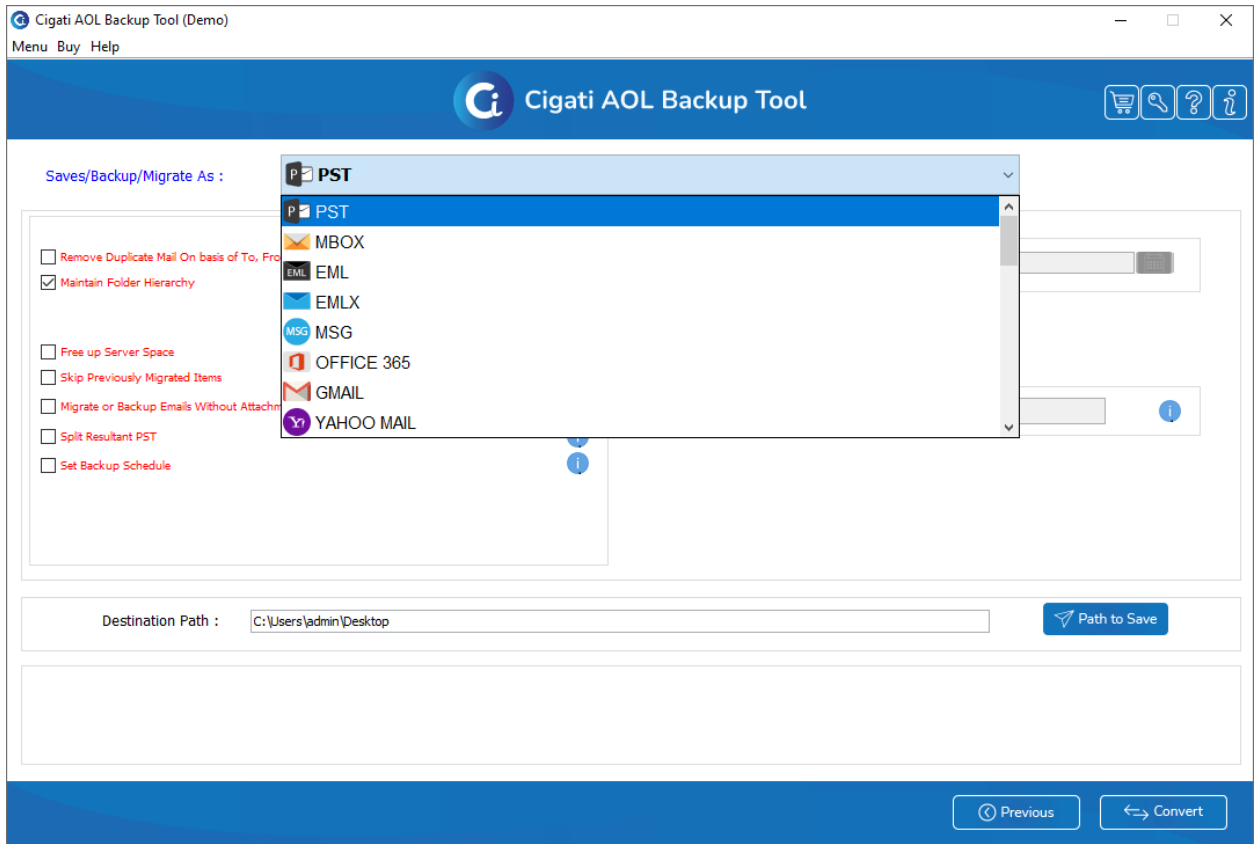

2. Enter the **AOL Credentials** using a [third-party app password](#) and press the **Sign in** button.

3. Mark the **Files & Folder** from the displayed tree structure and hit the **Next** button to proceed further.

4. Select the desired **File Folder/Email Client** from the dropdown menu of the **Save/Backup/Migrate As** option.

5. Here you can opt for the additional features as per your choice.

- a. **Remove Duplicate Mail on basis of To, From, Subject, Bcc, Body:** Using this feature you can prevent the multiple migrations of email which helps in effectively utilizing the storage space.
- b. **Maintain Folder Hierarchy:** This feature maintains the folder hierarchy even after the conversion process.
- c. **Free Up Server Space:** By opting for this feature, one can easily free up their server space after the complete backup.
- d. **Skip Previously Migrated Items:** Using this option, users can skip the email items they have backed up previously.
- e. **Migrate or Backup Emails Without Attachment files:** This option permits you to migrate your emails without their attachments.
- f. **Split Resultant PST:** While backup AOL emails into PST, you can opt for this feature to split the oversized PST files into smaller ones.
- g. **Set Backup Schedule:** Here using this option you can set your email schedule backup.

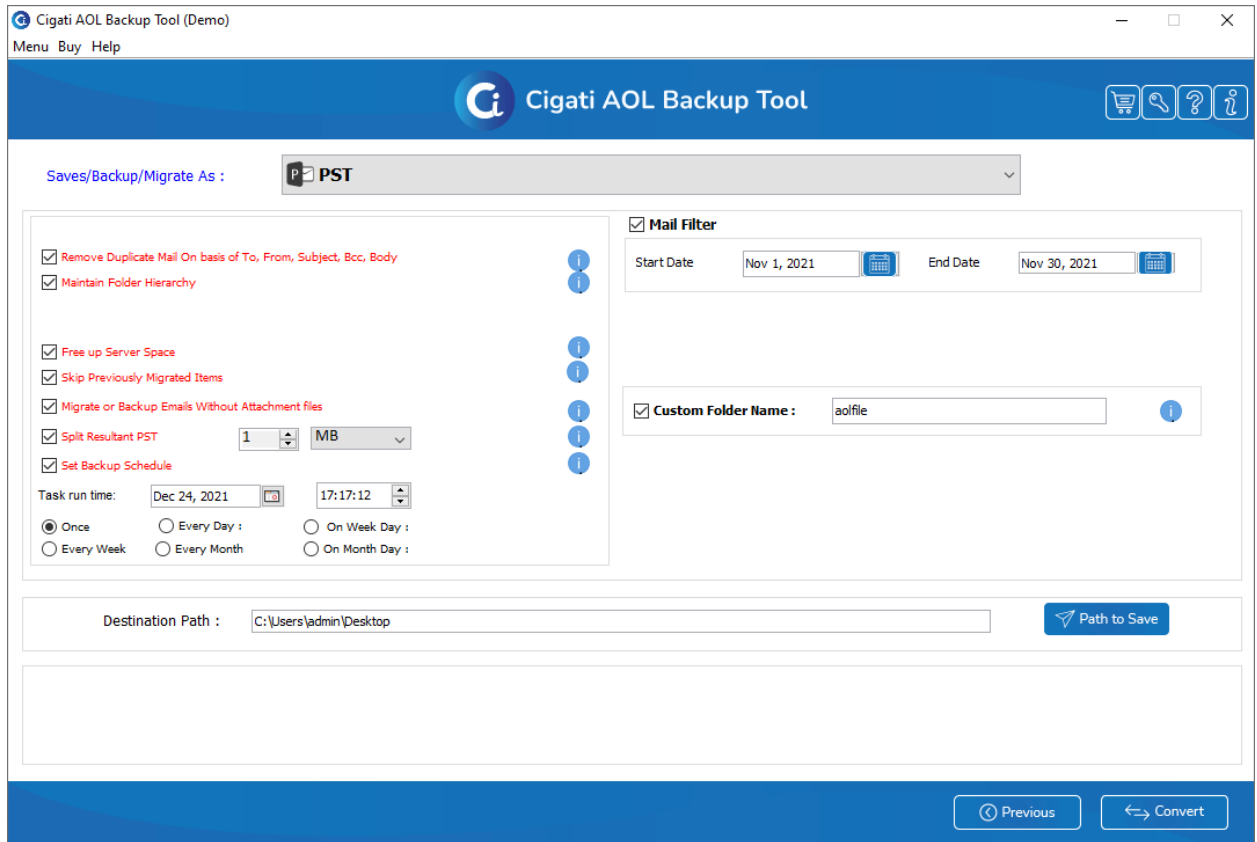

The screenshot displays the Cigati AOL Backup Tool (Demo) interface. The window title is "Cigati AOL Backup Tool (Demo)" and the menu bar includes "Menu", "Buy", and "Help". The main header features the Cigati logo and the text "Cigati AOL Backup Tool", along with icons for a shopping cart, search, help, and information.

The interface is divided into several sections:

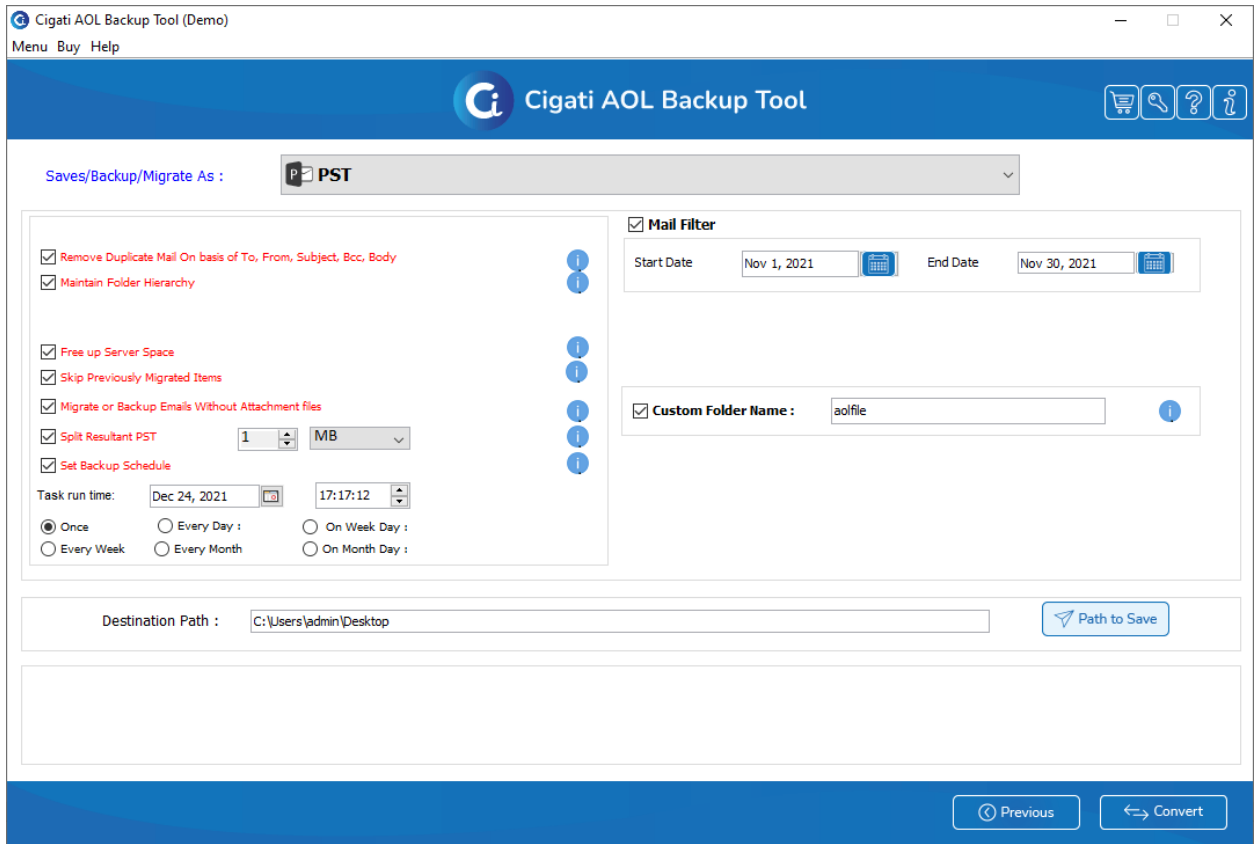

- Saves/Backup/Migrate As :** A dropdown menu currently set to "PST".
- Feature Selection:** A list of checkboxes for various features, each with an information icon to its right:
 - Remove Duplicate Mail On basis of To, From, Subject, Bcc, Body
 - Maintain Folder Hierarchy
 - Free up Server Space
 - Skip Previously Migrated Items
 - Migrate or Backup Emails Without Attachment files
 - Split Resultant PST (with a numeric input set to "1" and a unit dropdown set to "MB")
 - Set Backup Schedule
- Mail Filter:** A section with a checked checkbox and two date pickers: "Start Date" (Nov 1, 2021) and "End Date" (Nov 30, 2021).
- Custom Folder Name:** A checked checkbox and a text input field containing "aoffile".
- Task run time:** A section with a date picker (Dec 24, 2021) and a time picker (17:17:12). Below are radio buttons for scheduling: "Once" (selected), "Every Day", "On Week Day", "Every Week", "Every Month", and "On Month Day".
- Destination Path:** A text input field containing "C:\Users\admin\Desktop" and a "Path to Save" button.

At the bottom of the interface, there are two buttons: "Previous" and "Convert".

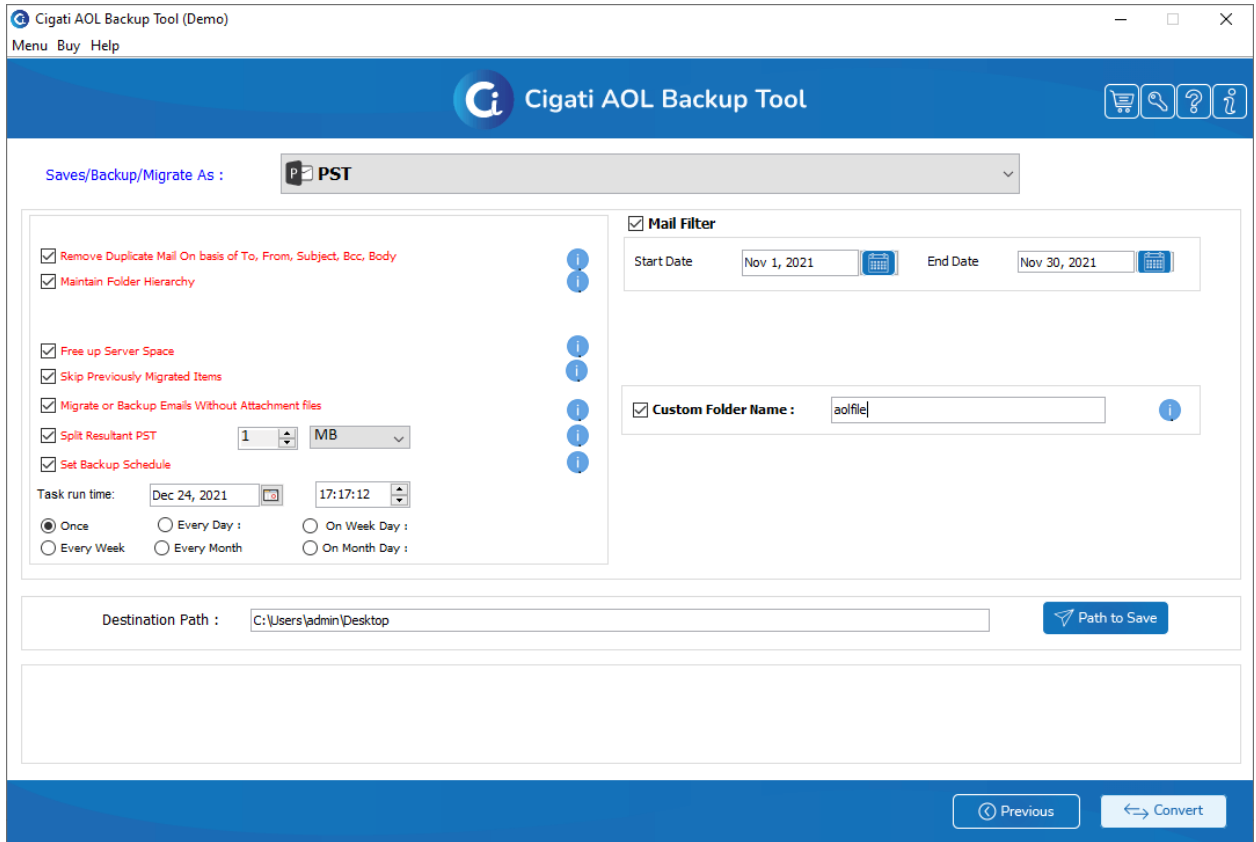

6. The tool offers you to define the specific file or folder within a particular date range.
- a. **Mail Filter:** This feature enables the users to transfer the selected email items.
 - b. **Custom Folder Name:** Using this feature you can specify the resultant folder name.

- Then, click on the **Path to Save** button to choose the location on your system where you want to save the backup folder.

8. In the end, click on the **Convert** button to begin the conversion process.

9. In the end, hit the **Download Report** button to download the resultant file on your system.
