	<b>Buy</b>	Click on this button to buy the licensed version of the software.
	<b>Activation</b>	You can activate the full software using the Order ID and Activation Key with this icon.
	<b>Help</b>	Tap here to learn more about the working and features of the software.
	<b>Info</b>	If you require any information about the software, you can press this icon for the same.

### 3. Working Procedure of the Software

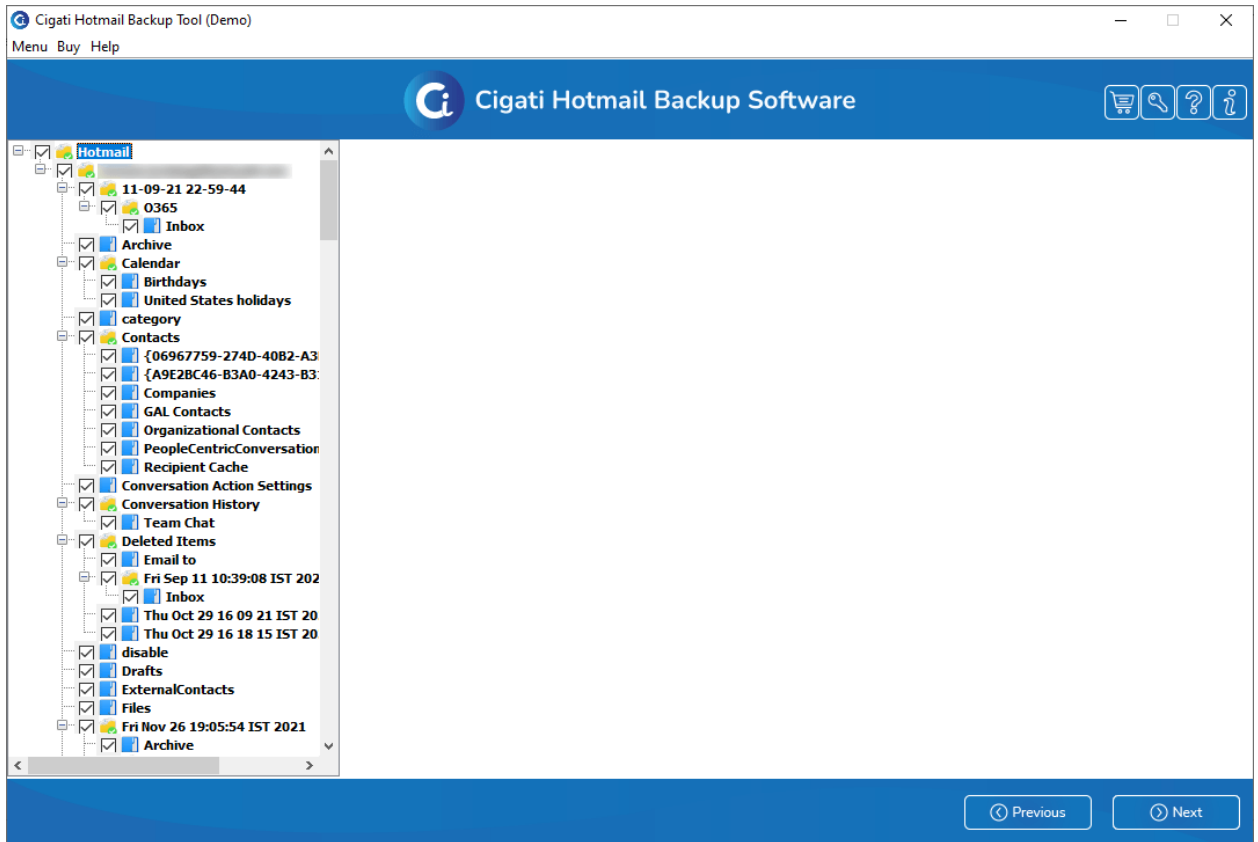

1. Download the **Cigati Hotmail Backup Tool** and **run it as administrator**.

2. Enter the **Hotmail Username** & [third party app password](#) and click on the **Sign In** button.

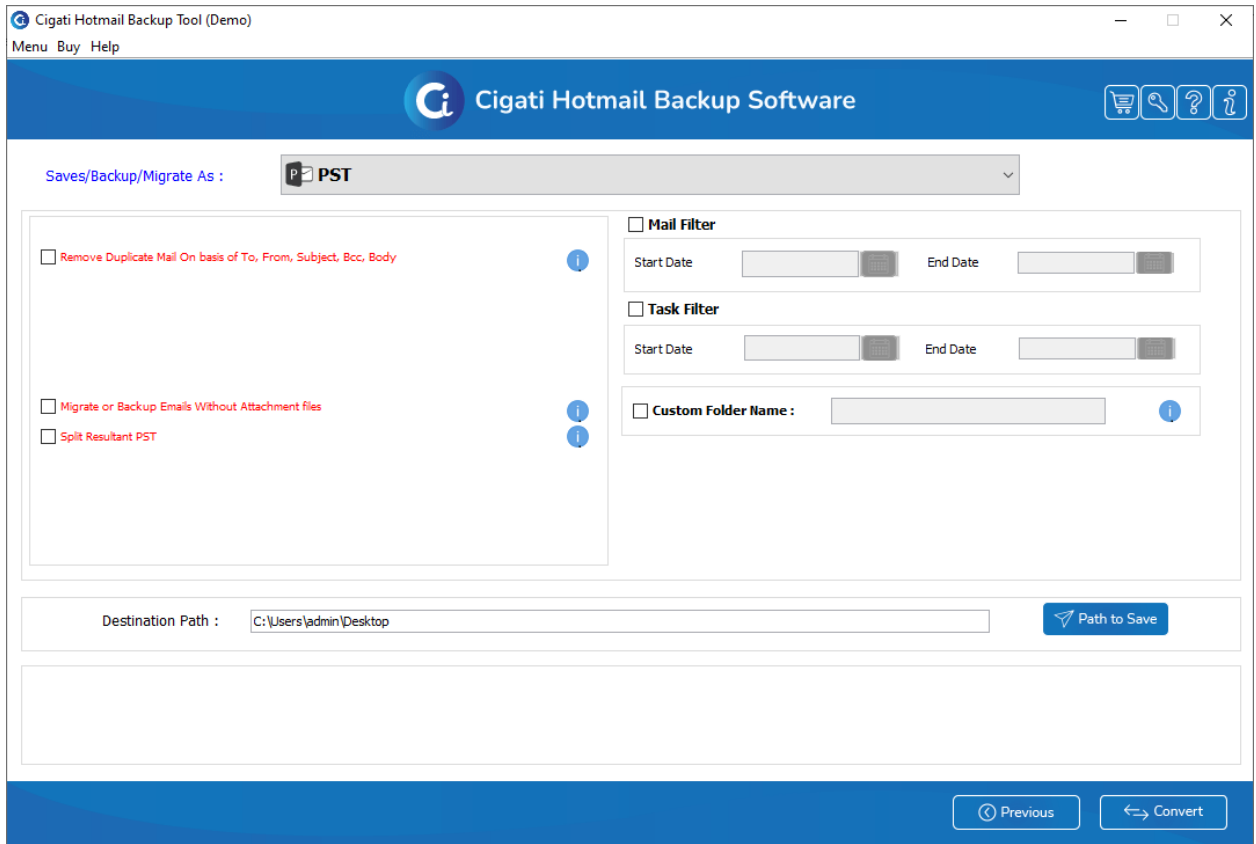

- Now, tick the **Files & Folder** in the tree structure that you want to backup and tap on the **Next** to proceed further.

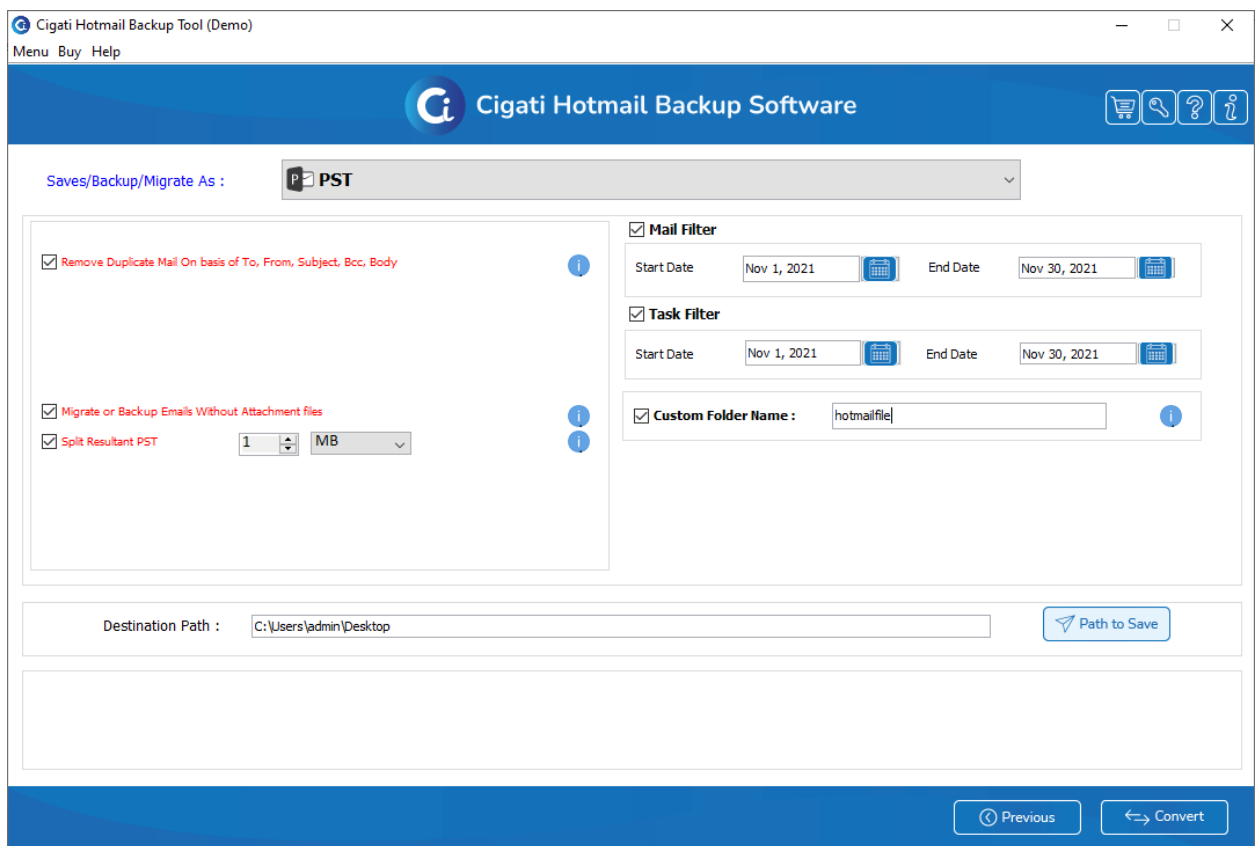

4. Choose the resultant **File Folder/Email Client** from the dropdown menu of the **Save/Backup/Migrate As** option.

5. The next step will facilitate you to opt for its advanced features. This will help you with the conversion process.

- a. **Remove Duplicate Mail on basis of To, From, Subject, Bcc, Body:** Using this feature you can prevent the multiple migrations of email which helps in effectively utilizing the storage space.
- b. **Migrate or Backup Emails Without Attachment files:** This feature allows you to migrate your emails without their attachments.
- c. **Split Resultant PST:** To backup or save Hotmail emails to PST, you can opt for this feature to split the oversized PST files into smaller ones.

6. This software also permits you to define the specific file folders within a particular date range. You can also define the resultant folder name
- a. **Mail Filter:** It allows you to define the date range for selecting particular Hotmail emails.
  - b. **Task Filter:** Task Filter feature is used to extract or backup the saved tasks of the Mailbox within the selected date range.
  - c. **Custom Folder Name:** This feature helps you to specify the resultant folder name.

The screenshot displays the Cigati Hotmail Backup Tool (Demo) interface. The window title is "Cigati Hotmail Backup Tool (Demo)" and the menu includes "Menu", "Buy", and "Help". The main header is "Cigati Hotmail Backup Software" with icons for shopping, search, help, and info. The "Saves/Backup/Migrate As" dropdown is set to "PST".

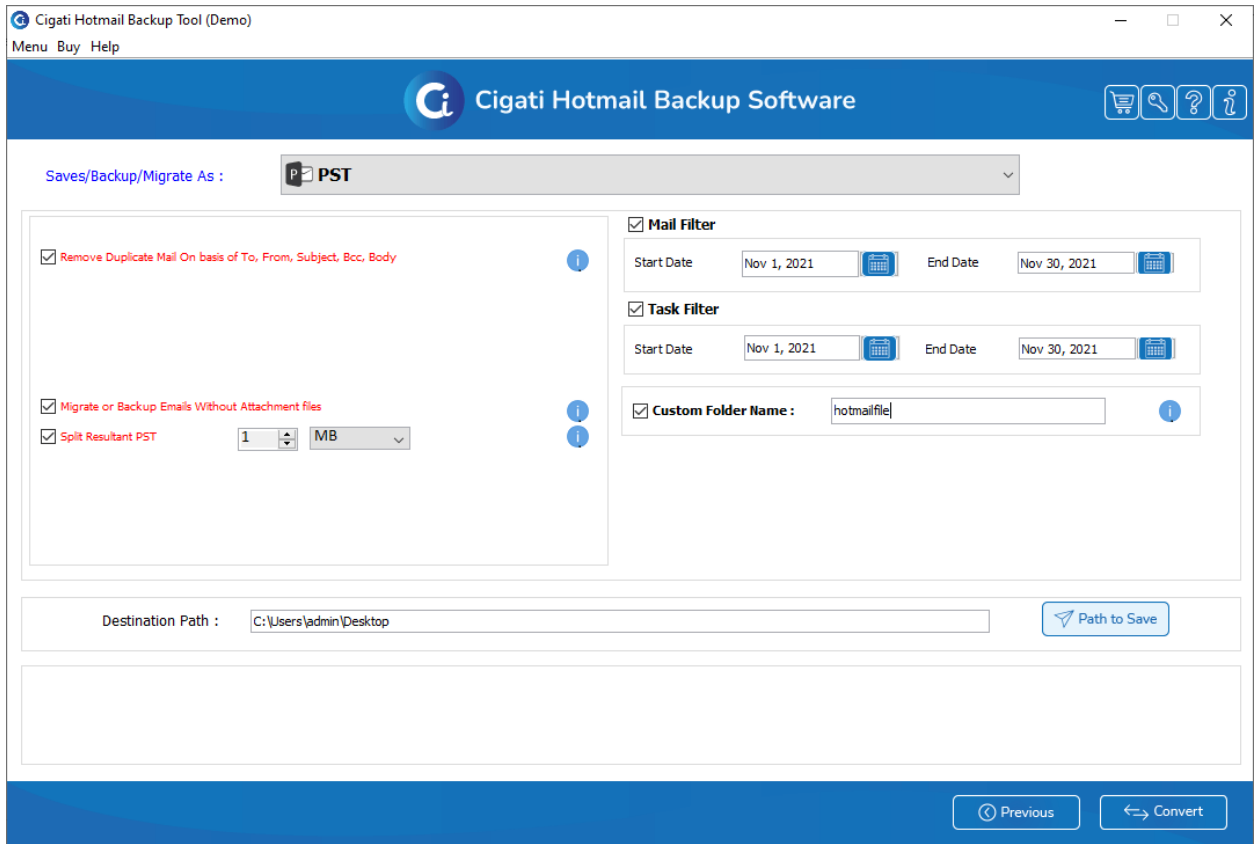

Configuration options include:

- Remove Duplicate Mail On basis of To, From, Subject, Bcc, Body
- Mail Filter: Start Date (Nov 1, 2021), End Date (Nov 30, 2021)
- Task Filter: Start Date (Nov 1, 2021), End Date (Nov 30, 2021)
- Custom Folder Name: hotmailfile
- Migrate or Backup Emails Without Attachment files
- Split Resultant PST: 1 MB

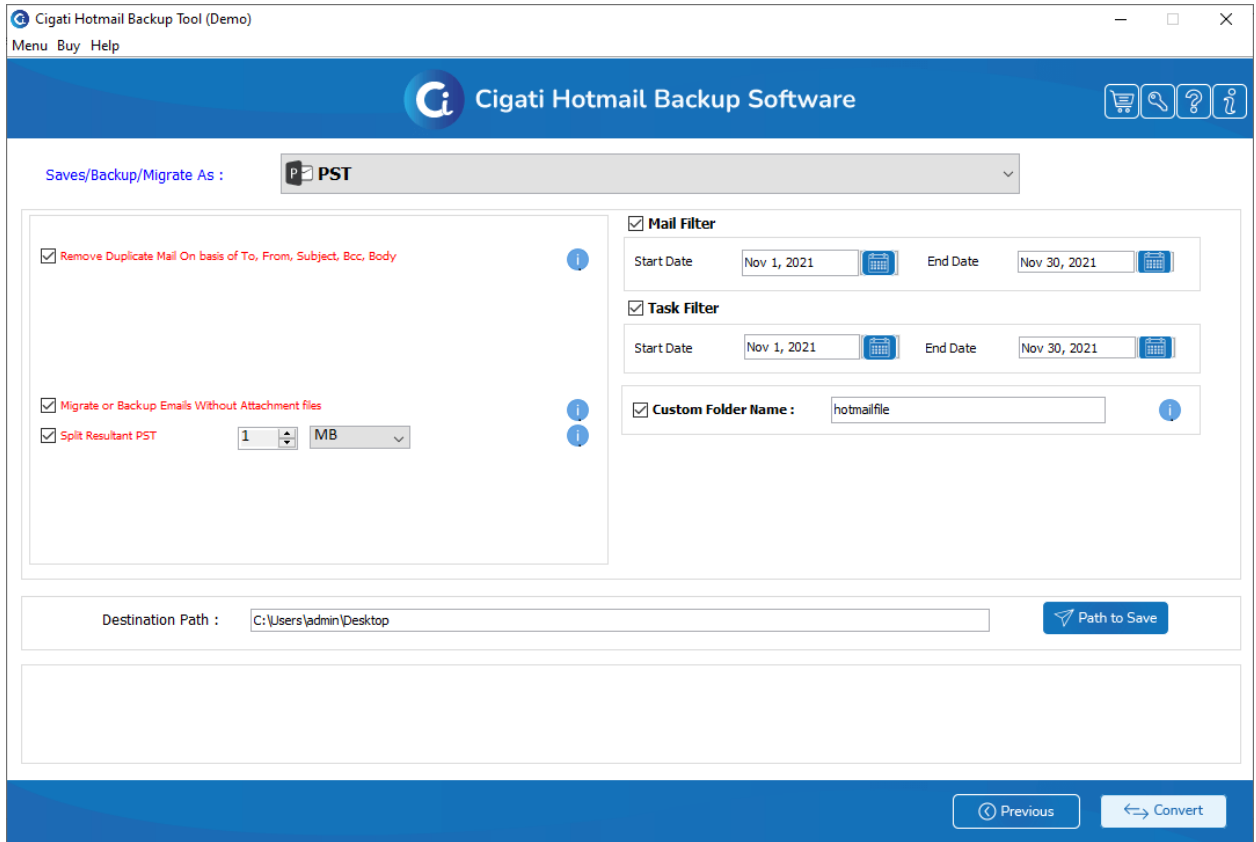

Destination Path: C:\Users\admin\Desktop

Buttons: Previous, Convert

7. After that, tap on **Path to Save** button to select the location on your PC where you want to save the backup folder.

8. In the end, click on the **Convert** button to start the process.

9. Lastly, you can click on the **Download Report** button to download the resultant file on your system.
